## The Campaign

**Transforming Health Care** is an initiative of the Australian College of Nurse Practitioners (ACNP), the national peak body for nurse practitioners and advanced practice nurses in Australia.

The Transforming Health Care campaign has been developed in collaboration with respected industry professionals, to help increase awareness of Nurse Practitioners, by providing valuable information to the public and the nursing sector.

## What is a Nurse Practitioner?

An NP as an accredited senior clinical nurse that has been recognised by the Nursing and Midwifery Board of Australia as an endorsed nurse practitioner after completing a Master of Advanced Nursing Practice (Nurse Practitioner).

“Being an NP gave me the skills and knowledge to be able to care for my patients throughout the whole continuum of care. The patients love it and I love it more than anything!”

**Tash, Critical Care Emergency, Victoria**

Driven by the ACNP, the Transforming Health Care campaign is aimed at supporting the community to gain access to NPs and to provide ongoing support to members that are in the nursing profession. If you are seeking support and wish to become a member with ACNP and join our network, then visit [transforminghealthcare.org.au](http://transforminghealthcare.org.au).

By becoming a member with ACNP, you can receive the following benefits:

- Discounted registration at training education and events
- Advocacy by the College on behalf of your profession
- Eligibility for awards and scholarships
- Professional networking and support
- Access to member-only resources and online forums
- Notice of relevant job opportunities
